

MINE RECLAIM ALLIANCE

TURN YOUR MINE WASTE INTO CASH

Get cash today for your patented mining claim while we clean up your surface waste. Keep your underground gold, silver, and other valuable minerals — and let us handle the mess.

WHAT WE DO

We're a nonprofit alliance dedicated to cleaning up and recycling mine waste across the American West. We remove old tailings and waste rock lying on the surface, ship them offsite for processing, and restore the land to a clean, stable condition. No tunnels, no blasting, no disturbance underground. You keep full ownership of the land and all underground mineral reserves.

HOW IT WORKS

Simple Structure

We purchase your piles of surface waste; you keep your land and underground minerals.

Simple Valuation

We sample each pile and propose a fair upfront cash price for the surface waste.

Simple Process

The site is fully permitted before work starts. Crews remove the surface waste in sections and truck it away. There is no onsite processing of any kind.

Restoration

Piles are removed, backfilled, and revegetated, leaving a clean, safe surface.

Full Control

You keep title to your land and all underground mineral reserves. Surface rights also revert to you after cleanup.

Upfront Cash Offer

Contact us with the basics of your patented claim. We'll discuss your goals and answer your questions and quickly structure an upfront cash offer that meets your needs.

WHY WORK WITH US?

Immediate cash

We pay you upfront (typically \$10,000–\$100,000 USD).

Turnkey cleanup

Permitting, hauling, remediation without you raising a finger.

Site restoration

Cleaner, safer land, restored to its natural beauty.

Eliminate liability

Mitigate exposure to environmental fines and cleanup orders.

Keep your underground wealth

We only take the surface waste, you keep everything else.

Retain your rights

Your land and minerals remain yours.
